THE BELGIAN COMPANY'S ESTANCIA

On former occasions we mentioned the formation of this Belgian Société Immobilière, and the great success with which the shares were placed in Belgium under the aegis of Mr. J. Duesberg, so well-known in River Plate circles. The four leagues of land which Mr. Donckier bought at the great Venado Tuerto auction were taken up by the company and the Belgian Estancia was started with a capital of about three millions and a half paper currency. The new enterprise very naturally met with all the difficulties that must necessarily surround affairs of this kind; the shareholders and Board knew little or nothing of estancia business, of pampa lands and of the routine which must be followed in the starting of cattle farms; but thanks to the sound management of the company's affairs in this city, the estancia has been now started with the most promising prospects.

Messrs. Donckier, Hanquet, André, who are connected with the company, and Mr. Tate and W. Mulhall left last week on a visit to the estancia, which is situated at the southern end of the Venado Tuerto; it embraces an area of four leagues of land, wire-fenced and adjoining the splendid property of Messrs. Runciman. All the lands are covered with hard grasses, on the high camps and with "gramilla," "trevol de olor" in the low parts, known as "cañadas." The grass grows with much luxuriance, and the fat condition of both sheep and cattle showed at a glance the excellent quality of these lands in spite of the protracted drought that has dried all the "lagunas." The soil is very fertile, composed of a deep black mould slightly mixed with sand; cereals grow with much facility and give an excellent yield. The plantations of maize at the estancia house and at the two "puestos" looked healthier, stronger and more exuberant than those on the inside camps, at Villa Colon, or in the Teodolina colony.

These four leagues of the Belgian Company embrace all the characteristics of that Southern part of the Venado Tuerto: The estancia, which is called at present San Mauricio, is better known to the natives of the vicinity as the Barrancosa, the name of a large "laguna" on the land, at present dry; a long and broad cañada, covered with fattening grasses and "gramilla," starts from Mr Runciman's land and projects far into the Belgian estancia, forming a beautiful green oasis and a very striking contrast with the dry and light-colored hard grasses of the high camp around.

Five thousand head of cattle and two flocks of sheep graze on the four leagues, and the camp can certainly support 1500 head of cattle to the league; the estancia is heavily stocked, and herein the representatives of the Company have shewn much tact; this large stock is eating down all the hard grasses, and before many years the grasses will change; on Mr James Turner's land, at Hinojo for instance, the land is already covered with "romerillo," an infallible sign of the change in the pasture. All the animals are fat, and although the large Barrancosa 'laguna' is dry, the large 'noria' and 'jagueles' of the estancia supply water in sufficient volume for the stock. The young animals are in better condition than the old stock taken from the inside camps; this is noticed particularly in the herds, which have increased very fast in the year.

The estancia house is large and well built; a special department is reserved for the peones and kitchen; and an airy room has been built apart for hanging up meat. A splendid galpon of 40x15 yards affords plenty of room for deposit and stalls for blood stock. All these buildings have been erected with the greatest economy; the "galpon" cost 40,000 $ m/c, the cheapest thing in the country; the estancia house was built for 36,000 $ m/c, and the wire-fencing was done at the rate of about 38,000 $ m/c per lineal league; economy, in fact, is the leading feature of the estancia, managed by a "mayordomo," a "capataz" and three "peones." Such an economical management is facilitated by the "puestos" at the entrance gates of the wire-fence and by the compact condition of the estancia; the shareholders may look forward to excellent results in 1885, when the estancia will emerge from its embryonic formation, and will yield a handsome interest on the capital invested; affairs have been started on a sound basis, and there is not a single estancia on the outside camps which can boast of a better organization or of a more promising future. At present there are only two "puestos," both well built and surrounded by fine fields of maize, with good water and in sufficient quantity; two or three more "puestos" must be erected at the other gates of the wire-fence before the estancia is in thorough working order.

The Belgian Company have started a perfect estancia model, but they have made one great mistake; ten leagues of land would have been a more adequate area for a Company, and the Belgian estancia, in all its perfection, looks very diminutive alongside Mr. Runciman's magnificent property Las Vueltas, nine leagues of excellent land, all fenced, with fine estancia, "galpones," "puestos" and several thousand head of cattle and sheep, all managed by Mr. G. Walker. This is the finest estancia in the Venado Tuerto, comprising splendid 'cañadas' and high lands, which are daily improving as the number of stock on the land increases. Mr. J. Murphy possesses eight leagues of land alongside, all fenced and stocked. The lands of Messrs. Brett and Lett, to the North of the Barancosa and Runciman estancias, are not stocked, although the camps are excellent. Mr. J. Turner's estancia in Hinojo is the very best land in this part of the Venado Tuerto at least; the grasses are changing rapidly, owing to the heavy stock on the land, and the "romerillo" grows everywhere.

All these lands are fenced and stocked, and estancias and sheepfarms are rapidly stretching to the Loreto camps, which are more or less the same as those of the Venado Tuerto; this rapid change in these camps has been effected in two or three years, and the metamorphosis of the desert into smiling farms is due to the brains and enterprise of Saxons; at the rate stock and estancias are increasing in these parts, all the Venado Tuerto and Loreto will be as thickly populated and settled on as the lands around Pergamino. The Belgian Company have started their estancia in the most promising part of the North West, and the value of their land will increase quite as rapidly as the number of their stock; the success of the Company means much for the Plate; the Belgian estancia will be the precursor of many other enterprises started with capital from Belgium. The Company may well be satisfied with the management of their affairs in the Plate, and pity 'tis that the Company has not started on ten leagues of camp, instead of four, in the Venado Tuerto or Loreto.

RECTOR FITZSIMON'S REPORT.

Mr. James Fitzsimon has just published his report of the National College of Corrientes, of which he is the talented Rector, and it may interest many of our readers to know something of this flourishing National institution since it is the only one in the Republic under the direction of a fellow-countryman.

We regret to say that, owing to the limited size of our columns, we are unable to give fuller extracts from this very ably drawn-up report, but the following introductory chapter will inform our readers of many details about the College which to the general public were unknown.

The National College of Corrientes was founded on the 3rd of May, 1869, D. Domingo F. Sarmiento being then President of the Republic, and Dr. Nicholas Avellaneda, Minister of Public Instruction.

By decree dated May 5th of that year, Dr. D. R. Fitz-Simon was named Rector and Director of studies, and ordered to proceed to the above city to solicit the grant of a building from the Government of the province that would serve for a College. The house granted formed part of a barracks, having four spacious rooms, though in bad condition, four large corridors, and a patio that the rain converted at times into a pool of Bethseda.

Towards the end of 1868, the Governor, Dr. D. Jose U. Guastavino, initiated a subscription amongst the neighbours of the Capital and Departments. The city responded generously to the call of its chief magistrate. A Committee was formed composed of Manuel Fernandez, J. V. Pampin, Dr. F. J. Cabral, Diogenes Lotero, and Augusto Scotto, and in less than 8 months they got together $14,000 for the construction of a new edifice.

The public inauguration of the College took place on July 9th 1869, but, owing to a want of furniture and the incomplete state of the building it was found impossible to form classes until August 2d of that same year. There matriculated the first year in the department of secondary studies 52 pupils and 104 in the preparatory school annexed to it, the last being subsidised by the Provincial Government.

Great was the labour of the Rector and Professors in this first year. The establishment of a new system of education and method of teaching completely unknown in the city presented, of course, in the beginning great difficulties. Formerly no such proper educational establishments existed, only a few inadequate schools, provided with incapable masters, and antiquated methods, and devoid of proper text books. Nevertheless, due to the extraordinary exertions of the masters, and the attention and zeal of the scholars, a most successful examination was passed before the Committee named by the Government.

Since then the College has surmounted all obstacles, which indeed could not have been overcome, but for the unswerving and illustrious protection of the National Government. In the month of April last the establishment was visited by the then Inspector of Colleges, Don Jose M Torres. His visit was of paramount advantage, as, due to his zeal in the matter, many things that seriously impeded the progress of the College were removed. It is to be regretted that the health of Sr. Torres would not allow him to continue at the head of the inspection of Colleges and norrmal schools. His great experience, energetic character, and renown combined so many advantages to fit him admirably for such a delicate post, and although eager as I am to recognize the distinguished merit of his successor, I must always regret the absence of the former gentleman, who has lent such powerful aid to the cause of Education.

The National College of Corrientes now numbers fourteen years. The high reputation that it enjoys amongst the inhabitants of the Province, the increasing numbers of distinguished youth educated in its halls, and who figure to-day amongst the lawyers, doctors, engineers and professors of the country, are an eloquent testimony that the labours of the Director and his staff have not been unavailing.

RESULT OF THE IRISH NIGHT.

DEPARTURE OF THE ENGLISH COMPANY.

Most of the Latham Company left for England last Tuesday by the Maskelyne. This is sharp work. Playing a comedy on Monday night and "en voyage" on Tuesday evening. With sincere regret the ladies and gentlemen parted from their young empresario who accompanied them on board and sent them away with pleasant and substatial memories. Miss Neville and Miss Arden left with Mr Latham a complimentary note expressing their acknowledgments for pleasant engagements and tendered their services for any time and anywhere. Mr Stevenson was no less attentive, and the final parting was of the most friendly description.

One or two members of the Company still remain in Buenos Aires awaiting a steamer for New York.

We are glad to note that the financial success of the Irish Orphange Benefit was all that could be desired. The Institution receives from Mr. Latham's coffers about seven hundred National dollars and from private individuals ten more, as follows:—

A Medical Man........	$5 m/n
An Argentine friend....	4 " "
An Irishman..........	1 " "
	$10 m/n

These sums have been duly handed over to Mr. Edward Casey, who, by the by, has sent to Mr. Latham a magnificent bookstand containing fifteen volumes of the British poets, got up with fine engravings and encased in costly bindings.

"Our Dan" has wound up his season well and may confidently look forward to many prosperous and happy campaigns of a like nature, for apart from his personal popularity, he has proved himself endowed with sentiments that do him honour and endear him to the public.

LATEST FROM BRAZIL

January 9th.

His Majesty the Emperor, who had felt somewhat indisposed since the 26th December, had at Petropolis on the afternoon of the 29th an attack of fever, accompanied by congestion of the liver, which, however, soon yielded to the remedies employed, and on the 2nd inst. His Majesty was able to receive again.

Heavy and almost continuous rains prevailed here from December 29th to January 6th, and as they also extended over a wide area along the coast and far into the interior, it is probable that serious inundations have occurred of which we shall receive notice only later on.

In fact, telegrams from the province of Paraná announce a great rise of the Nanhundiaquára river, and the consequent flooding of a large part of the city of Morretes, the seat of the 'maté' manufacture, the inhabitants having to be conveyed in boats to the high grounds and it being feared that lives had been lost. The Parahyba do Sul has also swollen greatly and a repetition of the disasters of 1882 is feared. Smaller inundations are also reported from various places, and even in the centre of Minas Geraes the injury done to the recently completed Carandahy to Queluz section of the D. Pedro II railway was so great that the inauguration has had to be postponed. Traffic has also been broken lower down.

No other serious damage to the older lines, or even to the Rio de Janeiro and S. Paulo railways traversing the Serra do Mar, is yet reported, but the sub-serra section of the Paraná railway has suffered some injury and part was flooded.

Yellow fever has not made any recent advance in the city of Rio and the mortality from it does not yet exceed one per diem.

The government is about to issue a regulation to give effect to the law obliging the religious orders to sell their landed property, except their convents, charitable institutions and cemeteries, within ten years, and convert the proceeds into inalienable government stock.

The revenue from Imports and Exports collected by the Rio custom house in December was $3,234:090, against $2,365,787 in December 1882, viz: from Imports of $2,569:756, against $2,596:-390, and from Exports $647:334, against $772:397.

In December the export of Coffee from Rio was 286,369 sacks, against 590,541 sacks in December 1882. In the year 1883 the total receipt of Coffee in Rio was 4,008,832 sacks, against 4,183,884 in 1882, and 4,503,073 in 1881.

The Rio custom house receipts from Imports and exports during the year 1883 were $39,131:708 against $39,991:139 in 1882, $41,567:579 in 1881, and $42,835:554 in 1880; viz: from Imports $33,316:214 in 1883, against $32,403:403 in 1882, $32,246:-137 in 1881 and $33,324:931 in 1880; and from Exports 5$,815:494 in 1883, against $7,587:968 in 1882, $9,221:-437 in 1881 and $9,520:528 in 1880.

The Treasury has given notice of the issue of a new $5 document stamp, with purple ground and white lettering and ornamentation.

New $5 Treasury notes have been put into circulation.

Degree 9,107 revives the cancelled concession to G. H. Duder of a central sugar factory in Nazareth, Bahia, with 5 o/o guarantee on $500,000, he having finally suceeded in organising a London company entitled the Nazareth Central Sugar Factories Company, limited.

Authorization has been given to the concessionaries to transfer the Ceará and United States telegraph cable concession to a company.

On the 2d two tenders for the construction of the Santos quays were opened at S. Paulo.

The planters whose cane the Central Sugar Factories of Brazil Company, of London, contracted to grind and manufacture in the Cuyambuca factory in Pernambuco, have protested for the heavy damages arising from the failure of the company to perform its contract.

The wooden gunboat *Guarany* was launched at Bahia on the 29th ult. It is 36.8 metres long, 7.9 wide, 2.59 in hold draws 1.73. It has twin screws, driven by engines of 280 horses, and two rudders, one aft and the other forward.

The government has given orders for the freeing of all the 118 slaves who resisted on the 14th ult. the escape of the other prisoners in the House of Detention.

The slaves taken in execution for taxes and, finding no bidders, adjudicated to the Treasury, have been set free by the judge at Barra Mansa, neither State nor Province being able to hold slaves.

At the end of December a mutiny of slaves was feared on the plantation of Sr. Antonio P. de Godoy Moreira, near Amparo, S. Paulo, and 15 armed police were sent from Campinas.

Another, which appeared to be on the point of explosion on a Parahyba do Sul plantation, Rio de Janeiro, was quelled by the arrival of some police, the leaders running off to Parahyba do Sul to seek an intercessor, and the rest submitting at once.

The Emperor is now completely reestablished from his slight indisposition during the closing days of the last year, so that he has resumed his customary walks about Petropolis and on the 5th came down to Rio for the usual Saturday dispatch of public business. If sickness could become a pleasure, His Majesty must have felt it in the satisfaction of expereriencing the devoted friendship of his subjects and of learning, by the numerous telegrams of anxious enquiry from England, the solicitude felt abroad in regard to his precious health, which, we are happy to say, is now excellent.

The well known and highly respected firm of Messrs. Brandes & Co. has ceased to exist, but, having acquired its assets and assumed its a liabilities, its business will be continued by the partners of the late Mr. Charles Brandes, under the title of Herm. Stoltz & Co., in which firm Mr. Otto Kramer, of Hamburg, continues as commanditary partner. Mr. Herm. Holtz has also notified that he has given a procuration to Messrs. Otto Schütze and Gerhard Heuer, who have an interest in the business, and has also conceded and interest to Messrs. G. A. N. Ziese and Leopoldo Pavia.

THE PLEIADES'S MAILS.

London, Dec. 22nd

The trial of the dynamite conspirators at Edinburgh has ended in the conviction of all the prisoners. After investigating the evidence and the suggestions put forward in defence, the jury yesterday found five of the ten prisoners—M'Dermott, Devaney, Callaghan, M'Cann, and M'Cullagh—guilty, as indicted, of feloniously conspiring to destroy public buildings and property. The remaining five—Donnelly, Casey, Kelly, M'Cable and Dunn—were found guilty at common law of conspiracy, but were recommended to mercy as having been ignorant to a large extent of the dangerous character of their accomplices' designs. Lord Moncrieff said, with regard to the first batch of convicts, that consequences far more serious than the occurrences which actual took place might have fo'lowed their desperate actions at Glasgow, and the only sentence he could pass on them was that of penal servitude for life. The five prisoners recommended to mercy he sentenced each to seven years' penal servitude, believing that the Jury had wisely discriminated between their offence and the intentions of the others. There was somewhat of a "scene" whilst the prisoners were being removed from the dock. Later in the day they were were conveyed under a strong guard to the Calton prison.

The barbarity of the murder committed in a lonely part of county Galway on Wednesday night is no way mitigated by the fuller reports which are to hand; though there is a suggestion that the crime may have had its origin not in some agrarian dispute, but in the deceased man's connection with secret societies. Moylan is said to have belonged to the extreme Nationalist party, and to have been under suspicion of treachery. A ghastly incident of the affair will recall to mind one circumstance of the Phœnix Park assassination. The murderer, before leaving his victim, placed on the dead man's breast a paper bearing the words "Tom Brown." Moylan, it should be here remembered, had been in America for a while, and it is said that he there kept up his connection with the Nationalists. The reverse side of the paper had upon it some writing which the police think it desirable not to make public. The latest telegram from the scene of the murder reports the arrest of Mrs. Moylan, upon whose statement depends the narrative of Wednesday night's scene.

Mr. J. G. M'Minnies, the representative in Parliament of the borough of Warrington, met his constituents last night and delivered a speech on the political topics of the day. Mr. William Summers, M.P., and Mr Peter Rylands, M.P., also addressed the meeting. A vote of continued confidence in Mr. M'Minnies and in the Government was passed.

It was reported at Hong-Kong yesterday that the French had captured Sontay. The citadel, which is said to have been carried, stands at the distance of a mile from the river. Admiral Courbet states that his losses in the attack on the outworks of Sontay amounted to 3 officers and 67 men killed, and ten officers and 170 men wounded. He has been appointed a Grand Officer of the Legion.

The condition of affairs at Suakim is declared to be gloomy in the extreme. The garrisons of Sinkat and Tokar are in a desperate condition, and it is feared that whenever the inevitable surrender takes place the Madhi will put all whom he may find in the town to death.

Prince Frederick William took his departure from Rome on Thursday night. King Humbert accompanied the Prince to the station, and assurances of goodwill were exchanged. The Prince has expressed to the Minister of War his admiration of the conduct of the troops who were reviewed in his presence on Thursday.

The Calcutta *Englishman* of yesterday gave the details of a "concordat" between the Government and the Anglo-Indian Defence Association in regard to the Ilbert Bill. The *Englishman* says that this arrangement provides a permanent safeguard for the rights and liberties of Europeans.

The United States Government has published some further correspondence between Mr Frelinghuysen and Lord Granville with reference to the Clayton-Bulwer Treaty. Each side maintains its interpretation of that instrument. The American Secretary asserts that by acquiescence for many years in the sole protectorate of the United States over this railway. Great Britain has in effect admitted the justice of the position which the President has taken up. The despatch concludes by expressing the conviction that the arguments heretofore put forward by the American Government are unshaken, and by stating that the President adheres to the views enunciated in the letter of May 8, 1882. Lord Granville "notes with pleasure Mr. Frelinghuysen's statement that the diversity of opinion existing will not impair the good understanding between the two nations."

In the Queen's Bench Court in Dublin, yesterday, application was made to admit to bail the prisoners charged wtth conspiracy to murder Mr Smythe at Barbaville, on the ground that it would be a hardship to detain them in gaol till the Match assizes, they having been in prison since April last. Counsel for the Crown opposed the application, and stated that the trial would take place at the Dublin Commission in February. The Court refused to grant bail.

In the Scotch Court of Session yesterday, judgment was given in favour of Mrs Whyte, the petitioner in what is known as the Queen's Ferry clerical divorce case. The Judge commented severely on the conduct of the respondent, the Rev. Mr. Whyte.

In the Mayo conspiracy case yesterday a good deal of evidence was called on behalf of the accused men. It was sought to set up *alibis* for several of them, and to cast discredit generally ou the statetments of the witnesses Coleman and M'Evilly. One of the witnesses for the defence told the Court that he "did not believe that there was any illegal society in existence in Mayo for the past three years."

At a meeting of Mr. M. Ranger's creditors held yesterday at Liverpool to consider an offer of £5,000 in full satisfaction of all liabilities, it was reported that Mr. Ranger in August, 1877, was labouring against an adverse balance of £43,000. Since that time the debit had grown until in October last it was £652,000. No trace of principals behind the operator could be found, nor of losses on joint transactions. The committee of inspection recommended that if any proposal at all was accepted it should be a definite offer of one shilling in the pound. The meeting was ultimately adjourned for a fortnight on the ground of informality in the notice.

THE HOGARTH'S MAILS.

The death is announced in a Reuter's Paris telegram of M. de la Prade, member of the French Academy.

The Goverament steamer Jackal left the Clyde yesterday for Loch Hourn, to quell disturbances amongst the fishermen there.

The trial of six Socialists charged with high treason, which has been proceeding at Ledben, Styria, during the last few days, has terminated in the acquittal of the accused.—*Reuter*.

A disastrous fire has occurred at Tempaford, Bedfordshire, where a mill and other property were destroyed. The damage is estimated at £90,000. No lives were lost. The fire is ascribed to the overheating of the machinery.

Yesterday morning Mr. J. L. Jacobs, solicitor, Hull, was found lying in an unconscious state in front of his house-door. A window in an upper story, 30 feet high, was open, and it is supposed he had fallen out. He is not expected to recover.

The trial of the two men charged with the dynamite outrage at Glasgow, will take place next Monday at Edinburgh. Two of the men who figured in the Liverpool case, Featherstone and Dalton, have turned informers.

A middle-aged man was found in a third-class carriage of a metropolitan train, on its arrival at Hammersmith, yesterday morning, with his throat cut. He died shortly afterwards, and it is believed he committed suicide.

At the Old Bailey, yesterday, Mina Jury, one of the witnesses in the Tichborne trial, was convicted of having unlawfully obtained £5 from Earl Kilmorey, and £13 from the Duke of Edinburgh. She made representations that she was in Alexandria at the time of the siege, and lost her husband and all her property. She was sentenced to twelve months' hard labour.

The Theatrical Divorce Case—In the Divorce Division, yesterday, Sir James Hannen summed up in the theatrical case, "James v. James and others." The jury, after nearly two hours' deliberation, returned a verdict for the respondent upon all the issues, and decided that the petitioner had deserted his wife. They could not, however, agree upon the question of cruelty charged against the petitioner.

In an interview yesterday with a deputation from the Sheffield Outdoor Beer Association, Mr. Mundella expressed the opinion that no holder of a beer off-license ought to have it taken away unless for an offence against the license. As to all licenses—publican and beerhouse—he considered that if they were taken away for the benefit of the public the holders should receive compensation. To do otherwise would be an injustice.

Mr. J. J. Bentham, solicitor, Sunderland, yesterday received the following letter:—"The Secretary of State for the Home Department having considered your application on behalf of James O'Flanagan, I have the satisfaction to acquaint you that he has felt warranted, under all the circumstances, in directing the discharge of this prisoner from Her Majesty's prison at Durham.'

Lord Derby received the Transvaal deputation, consisting of Herr Kruger, General Smit, and Mr. Du Trit, yesterday afternoon, at the Colonial Office, and remained in consultation with them for over an hour. The principal matter discussed was the question of the boundary and frontier of the Transvaal, upon which there is at present a divergence of opinion between Her Majesty's Government and the Boers. Nothing definite was arranged. The negotiations will be continued by correspondence.

In reply to Mr. C. J. Harvey, of Bournemouth, who wrote to the Premier respecting some recent remarks of Mr. Chamberlain on Church property, the following letter has been received:—"10 Downing-street, December 11th. Sir, I am directed by Mr. Gladstone to acknowledge the receipt of your letter, and to say that he does not see in Mr. Chamberlain's declaration to which you refer anything which should restrain the liberality of a member of the Established Church.

I am, &c.,

"*Horace Seymour*."

CONSUL BAKER'S REPORT.

AGRICULTURE IN THE ARGENTINE REPUBLIC.

PROVINCE OF SAN LUIS.

This province, which lies west of that of Cordoba, has a small city of the same name for its capital. Its superficial area is 126,000 square kilometers, the greatest part of which is devoted to cattle-raising. Some little attention is also paid to the cultivation of all the productions of the temperate zone, though much more attention is just now paid to mining pursuits, the adjacent sierras being rich in gold and minerals.

PROVINCE OF MENDOZA.

This is the most westerly of the Argentine provinces, it being bounded on the west by the Cordilleras, which separate it from the Republic of Chili. It contains an area of 150,000 square kilometers, and its capital is Mendoza, founded in 1559, and destroyed by an earthquake in 1861. Considerable attention has, from time immemorial, been paid to agriculture, the want of rain being compensated for by the construction of aqueducts for artificial irrigation, which is provided by the innumerable streams which come down the mountains. All productions of the temperate zone do well in this province, though, except for supplying the local consumption, the principal crop is lucern, which pasturage is in great demand for the cattle destined for the market of Chili. As all cattle on the way to Chili must be driven through Mendoza by the pass of the Uspallata, which is the easiest communication with the Pacific coast, and more than 50,000 horned cattle, without counting horses and mules cross the province every year, it is evident that the amount of forage produced must be no inconsiderable item.

But the most important industry in Mendoza is its viticulture. The vine is cultivated expressly for the purpose of making wine; and the article is compared by *connoisseurs* to the best classes of Burgundy.

Large qnantities of raisins are also prepared for market, as likewise figs, olives, &c. These industries are expected to assume greatly increased proportions, so soon as the Trans-Andine Railway, now in course of construction, shall give outlets to market, either by the Pacific or the Atlantic coast.

PROVINCE OF SAN JUAN.

This province, which has an area of about 100,000 square kilometres, and a capital of the same name founded in 1561, is situated to the north of Mendoza, which it very much resembles, except that its mountainous features are more pronounced. Mining in gold and silver veins is its leading industry, though agriculture has always been a favorite occupation of the inhabitants, through a similar system of irrigation as that which prevails in Mendoza. All cereals and vegetable crops produce abundantly, though that of lucern occupies about one-half of the ground under cultivation. Excellent wine is likewise produced, as also large quantities of raisins, figs, &c. It has recently been reported that bituminous coal has been discovered in the province, though whether in working quantities remains to be seen.

PROVINCE OF RIOJA.

The area of this province is about 110,000 square kilometres, and it is famous for its mining industries; also for its cultivation of the vine, which it grows in large quantities, and from which it produces a most excellent and generous wine. Very little attention is paid to the production of cereal crops, not nearly so much as under the Spanish rule—only enough breadstuffs being raised to meet the local demand.

PROVINCE OF CATAMARCA.

Like the last-named province, the great industry of Catamarca is its mines. Its area is stated at 240,000 square kilometres, a large proportion of which is underlaid with rich ores of silver, copper, and iron, though there is a want of capital to exploit them, the province being too remote and too isolated to make it profitable at present. There is but a limited number of acres in cultivation, and hardly enough breadstuffs are produced to meet the requirements of the people.

PROVINCE OF TUCUMAN.

This province lies to the south and east of Catamarca, and owing to its natural beauties and innumerable farms, is called not inappropriately the "garden" of the Argentine Republic. Its superficial area does not exceed 70,000 square kilometres, a large portion of which is relatively well cultivated. There is but one city in the province, which has the same name and is the capital, its foundation dating back to 1565. Lying under the high ranges of the Andes, it has an excellent climate, well adapted to the production not only of the cereal crops of the temperate zone, but those of the subtropical regions. The fine pasturage on the mountain spurs feed immense herds of horned cattle, and there are numerous dairy farms, where is produced the celebrated cheese called Tafi, so popular among the native population.

Considerable attention is paid to the tanning of hides, the distillation of rum, and the planting of rice, tobacco, and latterly of coffee; but the great and important industry of the people has, of late yesrs, been the growing of sugar-cane, the breadth of land put down in this crop gradually increasing every year. A number of sugar establishments with the most approved machinery from England and France are now in successful operation; and it is predicted that the province will soon be in a condition to supply the whole country with all the sugar it consumes.

BRITISH CEMETERY.

To the Editor.

Sir,

Montevideo, Jan. 15, 1884.

In deference to the family of the late Mr. John Hall, merchant, formerly a resident in this city, for the benevolent and liberal donation of two cuadras of ground on the Calle 18 de Julio (estimated value to-day £25,000 to £30,000) to be dedicated as a Cemetery for the interment of British subjects dying in this country. I would suggest a monument be erected to commemorate the grant, in the new English Cemetery, Buceo, the design and material to be introduced direct from England.

Mr. Hall was a partner of the firm of Messrs. Edwards, Hall and Co,, merchants, Liverpool, and the first to cure hides with salt for exportation from this country, holding or retaining a monopoly of the trade for some time, by contract with the proprietors of the several "mataderos" then existing.

EDITOR'S TABLE.

Three or four days more!! This was the "mot d' ordre" again yesterday about the unfortunate Water Works, with Humanity perspiring at every pore and panting through its daily toil as best it could. The heat yesterday was simply fearful, and the sighed-for "temporal" that was seen looming in the South from breakfast hour took a long time to come up. About dinner hour the Pipe Water was said to have come, and the storm was still coming.

Accidents on railways still continue. The latest and saddest is the death of Mr. Samuel Sanchez, a sub-contractor on the Andine Railway. Mr. Sanchez was so zealous in his duties that the delay in receiving materials affected him greatly, and whenever any did arrive he used to take off his coat and work as hard as his "peones;" he used to jump on and off moving trains and risk his life a dozen times a day. Poor fellow! He did it once too often, last week; he was caught between the buffer and his ribs were smashed in a fearful way; he lingered for a few days and died on Saturday, leaving a widow and young family to mourn his loss. The deceased gentleman was universally liked and esteemed.

Yesterday Mr. Thomas Drysdale and Mr. David Methven, of Flores, had a long interview with President Roca at his private house, in Calle Suipacha. President Roca promised Mr. Drysdale his fullest support for the blind.

We have Bahia Blanca papers to Sunday last, but the only news we can find in them is, that the cemetery there is in such an outrageous condition of neglect that it is utterly impossible for anyone to rest in peace in it. Subscribers visiting B. B. would, therefore, do well not to think of dying there.

Miss Arden, Miss Stevenson, Miss Neville, Miss Harding, Messrs. Stevenson, Lancely, and Scouler, went home in the Maskelyne. Miss Stanhope and Mr. Wheatcroft will leave for New York on the 28th, and Mr. Denstone remains for a time in Buenos Aires.

Murray & Seedorff's Moth Paper is the greatest boon ever introduced in Buenos Aires, as it will do away with all the bother of filling trunks and wardrobes with pepper, camphor, insect powder etc., to keep laid-by clothes free from moths. Try it.

The National Government has bought large parcels of copper in England and Chile, to coin cent pieces. They are badly wanted. The squeeze for small change is worse every day, and nobody will touch the Baltore emission with a tongs, although it is safe enough, being so wretchedly done that the forgers must make a better note, if they make anything, and therefore be easily detected.

At 1 p.m. yesterday Croppi's thermometer marked 108 Fahrt, and that on the Bolsa 105. The brokers looked parboiled, and the merchants quite done up.

The papers now say that the Tidal Wave which so frightened Montevideo the other day is quite common along the Brazilian coast, especially at the mouth of the Amazon.

The dynamite "imbroglio" has been settled. The Minister of Finance has ordered the perilous stuff to be placed in a floating deposit in the Roads.

The tramway horses suffer fearfully from the hot weather. On Tuesday five horses of one line died.

Some of our Normal Schools are evidently not up to the mark. A young lady who barely passed the other day as "Maestra," thought that she deserved the higher title of 'Profesora,' and had the cheek to write to the Minister of Instruction and tell him so. H. E. politely told the young lady that it might be as well for her to "shut up," as, in her letter to him, there were two errors in construction, and three in spelling! A nice specimen of a "Maestra"!

An ambitious young writer having asked, "What magazine will give me the highest position quickest?" was told, "A powder magazine, it you contribute a fiery article."

If your son asks something of you which you know ought not to be granted, do not hesitate to say "No." It is a wise father, says the proverb, who no's his own son.

We have the pleasure to announce a munificent donation to the Irish Orphanage, of 5,000 m/c, from our highly esteemed countryman the Rev. Samuel O'Reilly. Such a large sum from the private pocket of this worthy clergyman merits special mention as a noble act of charity.

The Senegale brings terrible news from Brazil. The town of Nanhundeaquora has been swept away by floods from the river Morettes. Most of the inhabitants managed to get away to the high grounds, but some were drowned.

The new Peer, the Poet Laureate, Baron Tennyson D'Eynecourt, was born in 1809 at Somerby, Lincolnshire. He is the third son of the late Rev. G. C. Tennyson. He was educated by his father, and proceeded to Trinity College, Cambridge. With the exception of some boyish writings, Mr. Tennyson did not publish anything till 1830. In 1850 "In Memoriam" appeared, and in 1851, on the death of Wordsworth, he was appointed Poet Laureate. The University of Oxford conferred the honorary degree of D.C.L. in 1855, and in 1859 he was elected as honorary fellow of Trinity College, Cambridge.

There'll be a shine about the new tramway fares. A Provisional Committtee has been formed, and has called the Public to a Monster Meeting, to protest against the new fares. Those who intend to back up the movement can apply to the Committee at 222 Piedad (altos.)

They are stewing in Montevideo as we are here—32 Centigrade—and all the water at Pocitos is impotent to keep them cool.

The European papers bring news of the loss by fire of the steamer San Augustin, of the Marquis of Campo's line, homeward bound, from Manilla. Several of the passengers committed suicide; others plunged into the sea. The captain, mad from burns and despair, asked the crew to tie him and throw him overboard, and *they did it!!* Some of those who jumped into the sea were saved.

A Frenchman, named Andrew Gell, shot himself yesterday in the Recoleta Cemetery. Cause unknown.

The *Prensa* is very severe on the younger officers of the National Navy, for wearing epaulettes, stripes, cordons, etc. "a su gusto," quite heedless of the rules of the service. This is an old-standing abuse, but we thought it had been cut short when President Roca assumed power.

The crowds of filthy, repugnant beggars that now infest the streets of this city are a shame and disgrace to it. Not one in a hundred of these repulsive rogues is a true object of charity, and those who give to them are simply fools. The Lord Mayor would add to his laurels by clearing the city of those miserable hordes that now prey on the gullible public.

The week is as yet a chapter of tramway accidents. A lorry loaded with cannon-balls, and belonging to the City of Buenos Aires Tramway Co., knocked down a lady crossing the street at the corner Belgrano and Buen Orden, the wheels passing over her left leg which was completely shattered. She was immediately removed to a 'botica' where the injured limb was amputated, and was then removed to her residence. The driver of the lorry took to flight after the accident.

Young Emilio Mendez cleared out the other day from San Nicolas with a respectable amount of paper dollars. On notice being given to the police he returned to the paternal hearth, but forgot the paper dollars. Our colleague, who gave the above particulars, left the tale unfinished.

A member of the genial society of the city, Roberts, found 500 National dollars yesterday at the corner of Tacuari and Comercio.

We heard yesterday that Mr. Taylor, the well-known contractor, and his nephew, gallantly saved three ladies from being drowned by the Tidal Wave at Montevideo on Monday. Mr Taylor arrived here yesterday morning.

The annual Summer-Concerts of the Turn-Verein Club will begin at the end of this month. This is good news for amateurs of garden concerts. The great mask ball of the Club will come off at the end of February or in the first days of March. The new Club building is being pushed ahead rapidly and will be completed in a few months.

It is said that a grand Kursaal for Roulette gambling will be opened at La Plata! This will soon populate the new city, all the inhabitants of which will have black legs.

The Rectors of the National Colleges will in future select their own teachers. This is a decided step in the right direction; as the Rectors will, naturally, try for their own sakes, to put the right men in the right place.

Advices from Mendoza report a sharp shock of earthquake there on the 8th, at 1½ a.m. The inhabitants jumped from their beds in terror, and did not go back again, as fearful subterranean roarings were heard in the Sierras for hours after, although no further shocks were felt.

The Mendoza papers announce the recovery of the Misses Day, daughters of Dr. Day, of that city, from a severe attack of typhoid fever.

ADOLFO BULLRICH & CO. announce to the public that on 30 JANUARY 1884 they will sell by auction to liquidate a society, this magnificent territory, some of the richest lands in the Plate, and which will soon be connected with Rosario and Santa Fe by a line of Railway. The steady growth of the Santa Fe Colonies will shortly bring these lands under agriculture when they will be cheap at 40,000 pats per league. The land will be sold on two years time, one third cash, and for whatever it will fetch. For further details se notice of auction on other page, or see the auctioneer.

Cedulas F	85⅞
National Bank Shares....	129

The hall was crowded to-day in spite of the excessive heat, and speculation in Shares of the National Bank rages fiercer than ever; the Share market opened with a wavering feeling, and closed flat in spite of the attempts to bull the stock. The bullish tactics, it must be acknowledged, inspire little confidence and it is indeed remarkable to witness operations passed over to next month at $2 and 1½; such a heavy difference excites attention. About three thousand Shares were sold for the end of the month; the market opened at 130, went up to 130½, tumbled suddenly to 129⅞ and closed at 129⅞. Operations for the end of next month embraced 1,250 Shares; rates opened at 132, fell to 131½, and closed at 131½. Fifty Shares changed hands for cash at 129.

The Cedula market is passing through a crisis of stagnation and weakness. The market is very depressed, and there are heavy sellers at 88 for the end of the month. A few thousand A changed hands for cash at 101½, and E at 88 and 87⅞; 18,300 F were sold for cash at 86 and 85⅞. Operations for the end of the month embraced 155,000 E at 88 and 87⅞. Thirty thousand F were sold for Saturday at 86.

The exchange market rules rather weak; some amounts were passed to-day at 47⅜ in sterling, 5.06-5.05 francs, and 4.08 Reichsmarks. Exchange on Montevideo was passed at 2½ o/o.

The money market continues easy and the banks discount liberally.

At foot we publish the balance-sheets of the Provincial and Mortgage Bank; the figures of the former are interesting; the profits of the year are very large indeed.

The market is on the eve of great news from Europe, the National Bank loan is being negotiated in London, and at any moment the telegram is expected with the news of its negotiation. It is in consequence of this news that there was such stir on 'Change this morning spite of the tremendous heat.

The protest of Santa Fé Government against Bulrich's sale of $167 ½ square leagues of land was the talk of the Bolsa, we have not seen Mr. Bulrich the auctioneer as yet to learn what step he will take, but they say on 'Change that the Santa Fé Government has employed a distinguished lawyer here to take immediate steps to stop the auction by order of the court. It is much to be regretted that these squabbles about frontier lines between the governments should be allowed to prejudice third parties.

A small camp 1/5 of a league in San Vicente has been sold for 47,72o m|c.

The new Rivadavia market in Calle Rivadavia will soon be brought to the hammer by order of the owners. Don Mariano Billinghurst is the auctioneer named to effect the sale.

There was a speech at the ring to-day made by one of the brokers which excited much merriment and cheer followed cheer.

It was announced on 'Change that the balance sheet of the National Bank for last year has been concluded the profits show 2½ millions patacons. All questions about the dividend have been settled and we hear 6 per cent for the ½year will be declared.

The sales at the ring during official hours were:—

The Senate yesterday named Mr Natal Torres to the important post of chairman of the Govern't. Pawn Office, Monte Piedad, and Domingo Cichero and Michael Victorica for Directors.

The *Campana* announces the sale of 8000 cows, 'al corte,' at public auction in Bragado, at 183 m/c, a very low figure.

Eight leagues of land in the VIIth Section are reported sold at 80,000 m/c per league, Mr. F. Parera buyer.

The Provincial Chambers yesterday passed the Cañuelas Railway Law, and further a law authorizing the Government to make what ever extensions of Railways are deemed necessary, provided that the vecindario contribute 3 per cent guarantee on the capital.

A building site in Bahia Blanca has been just sold, 30x60 for 135,000 m/c. It would appear as if the property sold was in Buenos Aires and not Bahia Blanca.

The wool business for the fortnight has been brisk enough, as we see by Messrs Green and Johnson's circular that 32,000 bales were shipped in the fortnight.

The Venado Tuerto and Loreto excursionists were welcomed on 'Change to-day on their return, all very much sun burnt.

We have again to contradict a purchase of quinta property alongside Lambaré, announced by the *Diario*. No such purchase has been made, neither is there any property about that quinta for sale.

Mr. Augusto Ross, formerly a barraquero, is now a land broker. He has many cheap and excellent lots of national lands for sale. As he has a good connection we believe he will do a large business.

The sale of forty square leagues of land in the North of the Province of Santa Fe is announced on reserved terms.

The Senegal's mails were delivered this afternoon. The letters received from London and Paris are most favonrable, and speak in the highest terms of the credit of the country in those markets.

The arrivals in the wool markets to-day were steady; the market shows no change; prices are maintained.

Mr. P. Ham sold in the South Plaza 1,5oo arrobes at $88%.

Tho fine new steamer Rio Negro, of the Chargeurs Réunis, has engaged 3,000 bales of wool at 20 frcs. and 10 per cent. She will leave on the 21st inst.

The Ville de Montevideo, at present up rivers, will leave this port on the 27th for Havre and Dunkerque.

Mr. Kropp, of the well-known firm of Messrs. Wedekind Fehr, was enveloped in friends to-day as he entered the hall; he leaves soon for Europe.

Tht market will regret to hear of the death of Mr. Karl Bunge, in Antwerp; deceased was well-known in this market.

The market ruled very dull during afterhours. Cedulass were freely offered at 87⅞. Operations were few and far between.

Notwithstanding the tropical heat that prevailed yesterday the land auction announced by Mr. Bullrich was largely attended by representative parties. Mr. Bullrich had the happy thought of serving round iced pale ale, which considerably revived the drooping spirits of his numerous customers. The bidding was not very brisk for the 66,000 hectareas that were first put up, and the result was as follows

B, lot No. 4, Pasma buyer at 59% per hect,
B, lot No. 3, do, 58% do
B, lot No. 7 and 8, do 53% do
A, lot No. 3, Girondo buyer, 49% do
D, ½-lot No. 23, do, 49% do
D, lot No. 24, Juan Hughes, 43% do

Lot No. 10 in letter B, with ½-lot No. 4, was put up, but as no bidder came forward they were withdrawn. This lot and half had not been advertised. Subsequently a lot of 7,887 hectareas in the Media Luna camps, belonging to Messrs Newberry & M'Nally, was put up and after an animated bidding was knocked down to Mr F. Thorp at the rate of $100% per hectarea.

From the Plaza Once de Setiembre we have the following:—

The heat in town is moderate compared to that in the Northern camps. Camp fires are frequent, owing to the parched state of the high grasses on the outside lands. On Friday last the Alvear camps adjoining the Venado Tuerto lands took fire and the conflagration spread with amazing rapidity; thanks to the activity of Mr. James Turner, of Hinojo, the Venado Tuerto camps were saved from the fire which had already entered Mr. J. Murphy's property. Mr. Turner was much burnt, but the Murphy estancia was saved. On Sunday last the fire began again; about four p.m. smoke began to rise in the North on the Armstrong lands; at 8 p.m. the entire horizon was in a blaze and the sight was one not easily forgotten; the wave of fire rolled on as fast as a horse can gallop, and all around the flames threatened the destruction of all the grasses. Owing to the strong North wind it was impossible to put out the fire; the wave swept over the Armstrong camp, entered the Murphy property and rolled over the Runciman estancia. At 10 p.m. the fire had swept over Brett's and Gordon's camp, and later on the flames advanced to Loreto; about one hundred leagues of camp must have been consumed by the flames. Messrs. Donckier and Tate, who were exploring the Loreto, had a narrow escape, owing to the high grasses which caught fire; twice they galloped through the fire, but were only slightly burnt.

Messrs. Green & Johnson, the well-known shipbrokers, give the following in their important shipping circular of the fortnight:—

Exports since 31st Dec., 1883, to January 15th, 1884:—

General Remarks—
Steamers—
Plenty of cargo offering, and rates remain firm at 20 francs and 10 o/o for Antwerp and the same for Havre, all per cubic metre. We have in port discharging several outside steamers, but owing to abundance of cargo, we do not think this will reduce rates.
Sailing Vessels—
More activity has been experienced, especially in tonnage for linseed to load at Santa Fé and other ports in the Parana. We expect a large chartering season. The ruling rates have been 33 francs for Channel f.o. from Sta. Fé, fs.25 San Lorenzo, fs.24 Rosario and fs.23 Baradero, San Pedro and Campana. For salted hides and tallow only three or four vessels have been fixed at 30s in full for Channel f.o. The killing has now begun in the River Uruguay, and owing to large quantities of railway material being on the way in small vessels for Paysandu we think rates will not advance this year very much.

St. Andrew's Scotch School.

The committee of management have much pleasure in informing Parents and Guardians of pupils, that through the exertions of the Home Committee, they have succeeded in securing the services of Mr William S. Connacher to fill the post of Head Master and of Miss Dale as Lady Teacher. There will thus be no interruption of the curriculum of the school through the retirement of Mr Hutton.

Mr Connacher and Miss Dale come among us with the highest Testimonials which the Committee have much pleasure in putting at the disposal of the public and may be obtained from Mr Grant, Cangallo 69.

The Christmas Vacation commences from the 22nd current, and the School will be reopened on Monday the 14th January, 1884.

The School Fees for next session have been arranged as follows:—

Robert Bird

Director

253-Calle Chile-253

The undersigned begs respectfully to inform parents and the public generally that, on the 15th January 1884, he will reopen his Academy, at the above address, and will use every effort to merit a repetition of former patronage.

The boarders will receive the immediate attention of the Director and Mrs Bird, who will spare no pains in order to secure their moral and intellectual culture as well as home comfort.

Besides the ordinary course of education, boys are prepared and sent up for examination at the University.

Boarders are provided with all necessary furniture.

The Academy is a fine building, fitted up with every comfort, regardless of expense, and the play ground is spacious, covering an area of six hundred square yards, beautifully shaded with trees and vinery, and affording every amusement.

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazos.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

Los Representantes de las Empresas de Tramways que suscriben, en el deseo de evitar las continuas dificultades que se suscitan entre los pasageros y los Mayorales, motivadas por la diferencia de moneda y escasez de cambio, y en atencion a que las transacciones deben arreglarse a Moneda Nacional, han resuelto que desde el Primero de Febrero proximo rija la siguiente tarifa:

Pasage de $2 %.......... 10 cts. m/n

Todas las Compañias venderan en sus Estaciones boletos de abono e intercambio con una rebaja de 20 o/o, en libritos de 10 o mas Boletos, los que serviran indistintamente en cualquiera de las lineas; es decir, que un Boleto de abono de la Empresa de Belgrano, sera recibido por cualquiera otra de las Compañias y asi en general; cada Compañia recibira los Boletos de todas las demas.

De esta manera, los que compren Boletos de Abono conseguiran una rebaja sobre los precios existentes, y como la cantidad que se vende es muy reducida y al alcance de todos, no dudamos que el publico aceptara con gusto este arreglo, que viene a redundar en su beneficio.

Venderemos a la mas alta postura y a los plazos arriba indicados 32 leguas de esplendido campo, ya celebre por sus ricos pastos tiernos, sus abundantes aguadas y la fertilidad de sus tierras.

Los numeros en venta son el 11, 19, 20, 21 y 22 de la letra A, y el 1, 2 y 9 de la letra D, Seccion 8, Territorio Nacional.

Todavia existen alli los vestigios de las Tolderias de los Ranqueles, sus rancherias, sus corrales y sus jagüeles de riquisima agua.

Estos campos y los inmediatos a la Ciudad de Buenos Aires, son los verdaderos

Campos de pasto tierno

Los primeros por haber estado en el poder tranquilo de los Indios por mas de un siglo, y los otros por haber sido ocupados por los cristianos.

Los campos de pastos duros son los de la zona intermediaria, donde ni el indio ni el cristiano se aventuraban a permanecer por temerse mutuamente.

Solo asi puede racionalmente esplicarse el hecho notable de que en la seccion octava se encuentran pastos tiernos iguales a los campos de adentro que valen hoy pesos 3,000,000 la legua.

El informe del agrimensor Alsina sobre estos campos dice textualmente asi:

"Estos campos que fueron ocupados por los indios Ranqueles se encuentran respecto de calidad y cantidad de pastos, montes, piso, etc, en identicas condiciones que los campos de Leubuco y Poitagüe, cuya superioridad es publicamente conocida."

"Dice el agrimensor Pico que los arboles de esta region son inmensos, entre ellos los hay que miden cuatro y media varas de circunferencia en su tronco principal abarcando con sus ramas un diametro termino medio de 32 varas."

Apesar que algunos colocan el Pueblo Victorica, ya una poblacion de 1500 almas, en el lote 23, los propietarios de estos campos tienen datos particulares de personas de esa localidad que les permiten declarar que se encuentra en el 22 el lote lindero, o sea en el corazon de estos campos.

Fuera de una infinidad de jagueles de agua riquisima el campo tiene las lagunas siguientes—Poitagüe, Aucamelué, Lui Carreta, Tirlin, Utra Trigoin, Echoué, Quillai Lauquen, Quitripil, Antiqueo, Guada y varias otras de lluvia sin nombre.

Por planos y folletos ocurrir a nuestra casa, Alsina 78.

Las condiciones de pago son ⅓ parte al contado, y el resto a una y dos años de plazo sin interes y con pagares hipotecarios.

El Jueves 14 de Febrero
A las 2 de la tarde

Venderemos a la mas alta postura y a los plazos y condiciones mencionados.

28 leguas kilométricas con 70,000 hectareas de muy buen campo de pastos tiernos y fuertes, propios para vacas y ovejas, con espléndidas aguadas permanentes en algunos parajes y facilidad con otros para hacer jagüeles.

Los campos que ofrecemos se remataran por disolucion de sociedad, y por consiguiente sin base.

Los lotes son: letra C. núm. 6 con el pueblo General Acha y Ns. 19, y 22 y 33 de la Seccion 10ª. y lindando con los tres lotes anteriores y cada lote compuesto de 4 leguas kilométricas y a 5 leguas al Sud Oeste distante del Pueblo General Acha, la segunda Bahia Blanca del Sud, por su floreciente comercio y el gran desarrollo de la poblacion, pues cuenta ya en la actual con el servicio de dos galeras, la del señor Camacho (via del Sur) que sale de la Estacion "La Gama" F.C.S. los dias 10, 20 y 30 de cada mes tenindo sus agencias calle Moreno 243 y la del señor Negri, agencia Tacuari 9 y 11, que sale desde Chivilcoy los 9 19 y 29 de cada mes, y ambas Empresas hacen este servicio sin suvencion de ningun género lo que demuestra que puedan vivir y son sostenidas por el comercio y la poblacion del pueblo General Acha, que sera la Capital de la Gobernacion de una seccion de los Territorios Nacionales.

Como se vé, esto pueblo tiene comunicacion cada tres dias con la Capital y pronto sera diaria por medio del telégrafo en via de construccion y cuyos postes estan ya muy cerca.

Para demostrar la bondad de estos campos solo nos bastara mencionar las estancias existentes en la jurisdicion de General Acha:

Señores Anchorena, agrimensor Castex Lopez Osornio (en 3 cruzes), Real y Oliver (en Artehuco), Frisch-Patrick (Saeinas Grandes), Teves Tobio, Corvalan, Gimenez, de los Santos, Gadea, Loza y Lezcano (Chiihue), D. Simon (Siguelco), Capdevila y Escandy Hepcipel y Maraco), Balcarce y Herera (Resneco Grande), Mater y Lessie (en Quini Molal) agrimensor Cascallar en (Pichi Rinanco) y muchos otros pobladores cuyos nombres no recordamos y ademas el espacio no nos permite estendernos mas sobre estos campos.

Los detalles minuciosos y datos estadisticos pueden verse en el folleto que publicamos con el correspondiente plano de las tierras que ofrecemos en venta y que esta a disposicion de los interesados en nuestra casa Alsina 78

Remataremos a la mas alta postura, por orden de su propietario.

El lote num. 28 de la 4ª Seccion de los terrenos cedidos por la Provincia de B. Aires al Gobierno de la Nacion compuesto de 10,000 hectareas.

Linda con el num. 17 del Sr D Gregorio Soler, el numero 29 de Martin L. Munro, num 42 del Sr D F Ramsay y Bell, num. 27 Riat Hnos, tomando parte de las Salinas Chicas.

La distancia de Bahia Blanca es de 10 a 11 leguas garantidas y la Comisaria de Salinas Chicas esta instalada sobre este mismo campo.

El campo es de muy buenos pastos y con aguada permanente.

Los lotes num. 27 y 42 estan poblados con haciendas vacuna y lanar y del otro lado del Sauce Chico y 6 leguas escasas esta la gran Estancia de los Sres. Ernesto Tornquist y Cia. con 80,000 ovejas, vacas y yeguas, etc.

La proximidad del puerto de Bahia Blanca es de suma importancia, pues facilmente se comprende que los gastos de conduccion para los frutos del pais son insignificantes en un trayecto de 10 leguas a recorrer.

Las comodas condiciones para el pago es otra ventaja que no debe perderse de vista, mitad al contado y mitad a seis meses de plazo con hipoteca del mismo campo y sin interes.

Las tierras que se ofrecen en venta, se encuentran ubicadas en la Provincia de Santiago del Estero sobre el deslinde con la de Santa Fe.

Su situacion es inmejorable y dificilmente podria ofrecerse a la venta una estension de tierra que reuna las condiciones de las que van a rematarse. Estan situadas al norte de la Provincia de Santa Fe y a ocho o diez leguas de las florecientes colonias de esta Provincia y a muy poca distancia de los importantes establecimientos de los Srs. Ramayon y Escalada, Lezama y otros.

Dentro de muy breve tiempo las colonias invadiran estos campos que por su feracidad y situacion se prestan cual ningunos otros a la agricultura.

La calidad de estas tierras es excelente. Estan cubiertas de una capa de tierra vegetal de sesenta a ochenta centimetros y en algunas partes el espesor de estas capas pasa de un metro. Las aguas subterraneas se encuentran a cuatro, cinco y seis metros de profundidad, y en todos los jagueles que se han hecho hasta ahora en esta region, se ha encontrado agua dulce. Abundan ademas las aguas superficiales en pequeños arroyos y lagunas.

Estos campos son parte de los comprados ahora muchos años por D. Adolfo E. Carranza al Gobierno de Santiago del Estero y cuya mensura y plano fueron levantados en los años 1859 y 1860 por el ex-Ingeniero Nacional D. Juan Hildebrano.

En el año de 1873, a solicitud de sus propietaries entonces el Dr. D. B. de Irigoyen, D. Alejo Arocena, D. Anacarsis Lanus, D. Ambrosio Lezica y Don Adolfo E. Carranza, fueron prolijamente mensurados y amojonados en suertes de cuatro y seis leguas por el Agrimensor Publico D. Valentin Virasoro, mensura y division que fue ordenada y aprobada por el Gobierno de Santiago del Estero.

El espediente original se encuentra archivado en el Ministerio de Gobierno de la Provincia de Santiago, pero un testimonio publico de este espediente con todas sus ocupaciones, esta depositado en esta ciudad en la Oficina de Registro del Escribano D. Ramon F. Lagos, (Pasage Roverano, escritorio num. 34 altos) donde los interesados pueden inspeccionarlo.

Las ciento sesenta y siete y media leguas que se ofrecen en venta, estan divididas en treinta y una suertes de cuatro leguas, cinco de seis leguas, dos de cuatro leguas y una fraccion, una de tres leguas y media y otra de una legua y media.

Todas estas suertes estan perfectamente amojonadas, teniendo cada mojon gravados los numeros de las suertes a que corresponde. El agrimensor señor Virasoro ha adjuntado en su diligencia de mensur los datos principales de la naturaleza de cada una de estas suertes y a pedido de uno de los interesados dio un informe especial sobre las tierras que van venderse que en su mensura estan señaladas y divididas en tres lotes con los numeros 1, 2 y 4 de la seccion del Este.

No publicamos aqui esos informes por su estension, pero los interesados los encontraran en el folleto que hemos publicado y puede obtenerse en nuestra casa Alsina 78.

Esos informes son muy minuciosos y dan una idea exacta de la calidad de estos campos y ellos fueron pasados a los Sres Bates, Stokes y Ca. por cuenta de quienes el agrimensor Sr Virasoro practico la mensura.

Desde la ciudad de Santa Fe a estos campos hay solo treinta y dos leguas. Desde el lote 100 al pueblo de Reconquista, centro de colonias y establecimientos importantes hay veinte y tres leguas.

Ademas del informe del agrimensor Sr Virasoro y del que hemos transcrito los parrafos que se refieren a la estension de tierras que ofrecemos en venta, pueden los interesados consultar el espediente de mensura que se encuentra en poder del escribano Sr Lagos, donde encontraran datos sobre cada una de las suertes.

La riqueza de estas tierras por su feracidad sus ricas aguadas y sus montes esta fuera de toda ponderacion.

Podemos asegurar que antes de dos o tres años estara colonizada la mayor parte de esta zona, pues las colonias de Santa Fe, como puede verse en el mapa adjuuto, avanza mas rapidamente hacia ese lado, que es donde estan las tierras mas ricas para la agricultura.

Contribuira poderosamente para el desarrollo de esas colonias la proximidad del puerto de Reconquista, sobre el Rio Parana, como tambien el Ferro Carril que se propone construir la empresa de los Sres. Murrieta y Ca.

Es publico y notorio que estos señores acaban de enviar a Santa Fe al Señor Don F. E. Harman, distinguido agronomo ingles, con el objeto de estudiar esas tierras que van incontinenti a ser colonizadas en gran escala.

Estan depositados en el Banco de Londres y Rio de la Plata los fondos necesarios, no solo para los gastos preliminares, sino aquellos que se requieren para la instalacion de varios grandes establecimientos de campo.

En vista de estos antecedentes, es indudable, que antes de muy poco tiempo, esas tierras valdran de 20 a 30 mil pesos fuertes la legua, precio que hoy se obtiene facilmente en las ventas de las tierras proximas a estas para colonias.

Por planos y folletos ocurrir a nuestra casa Alsina 78.

10,000 hectareas ubicadas en la IV Seccion Letra A, lote num. 14.

20,000 hectareas, ubicadas en la X Seccion, Letra B, lotes num. 24 y 25.

La primera fraccion queda como a 25 o 28 leagues de una de las Estaciones del Ferro Carril del Sud de Bahia Blanca y de consiguiente puede decirse a 1 dia escaso de la Capital. El campo es quebrado, muy abundante en pastos, siendo estos mezclados, predominando un pasto fuerte de excelente engorde.

Hay monte de calden y algarrobo, siendo la parte Norte del lote mas montuoso, y mas pastosa la parte Sud. Tierra algo arenosa pero muy buena y segun las opiniones de las personas que han informado sobre esos campos por haber recorrido toda la seccion, es tal vez el mejor lote de ella.

En cuanto a los informes de las 8 leguas de la X Seccion, son mas o menos iguales.

Estas campos queda muy cerca de los que acaba de vender el Sr Tornquist al Sr Bernasconi y a la gran estancia del primero de estos señores uno de los mas grandes Establecimientos de la parte Sud de la Provincia.

Las grandes vias ferreas que deben arancar del gran puerto de Bahia Blanca y que cruzaran la inmensa zona de tierras Nacionales, encerrandolas un vasto circulo de hierro y que terminaran en Antuco (Chile) Ville Mercedes, San Luis, etc, tienen forzosamente que impulsar y dar gran valor a todas estas tierras.

La adquisicion de estos campos esta al alcance de todos y las condiciones son ventajosas la mitad al contado y el resto a 12 y 24 meses (1 y 2 años) de plazo sin interes, con pagare hipotecario.

GREAT FIRE IN GLASGOW.

Patent "Rapid" Fire-Engine.
R. & J. JARVIE,
MANUFACTURERS,
19 Stobcross Street,
GLASGOW.

Testimonial from Alexr. Sinclair, Esq., Manager, *Herald* Office, Glasgow

Office of *The Glasgow Herald*, Glasgow, 10th Nov., 1883

Gentlemen,

In connection with the Great Fire in Buchanau Street and Mitchell Street which besieged our premises on Saturday night last, I can say without reserve that your handy "Rapid" Fire-Engines, of which we have seven, did most invaluable service in the hands of our men by preventing the fire catching and in extinguishing it where it was burning. At one of the most critical moments, when the flames had seized upon one of our side rooms and were about to spread to the heart of the building, one of your Machines was applied to the burning parts with the most effectual and gratifying result.

I may add that had one or two of these Extinguishers been upon the roof of our neighbour, Mr Jenkins, the probability was that his building would have been saved, and we would thereby have been preserved from the extreme jeopardy we were in.

Yours truly,
(Signed), ALEXANDER SINCLAIR.
To Messrs. R & J Jarvie, 19 Stobcross Street, Glasgow.

Extract from *Chambers's Journal*, 26th May, 1883.

"Knowing as we do that prompt measures taken at the first may save the premises, we have introduced into those of this Journal half-a-dozen handy little portable Fire-Extinguishers, termed the 'Rapid,' which seem all that can be desired. They are manufactured by R & J Jarvie, 19 Stobcross Street, Glasgow.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.
Dr J. Collis Browne's Chlorodyne
(Ex Army Medical Staff)
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.
REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Crup. Ague.
CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congralulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION.—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.
